

# Python Course Overview Practice Assignments

Introduction to Programming in Python - Summer I 2023 - Lyon  
College

Marcus Birkenkrahe

May 17, 2023

## Practice: a first "literate" Python program!

Figure 1: Books aren't the only way to be "literate" in programming!

(You can find a PDF and a Org version of this file on GitHub)

Objectives:

- Understand the "literate programming concept"
- Find Python on your computer
- Find Python for download to your PC on the web
- Options for creating and running Python scripts
- Understand when we're using Colab + IDLE + replit.com

- Starting and using Google Colab, IDLE and replit.com
- Creating and running our first ever Python script
